

Presents

AI & Robotic Process Automation Conference - 2019

19 - January | Bangalore

— Sponsorship Proposal —

About

Robotic Process Automation enables you with tools to create your own software robots to automate any business process.

RPA based solution, empowers enterprises to dramatically reduce operational costs, increase efficiency, improve productivity and accelerate performance.

AI enriches RPA and provides best enterprise solution. AI and RPA thus present an immense opportunity for companies to redefine their customer engagement strategies and also for technology leaders to industrialize these next-generation digital workforce in their operations.

Benefits of Attending

10+ Speakers

**Interactive
Sessions &
Panel Discussion**

**100
Attendees**

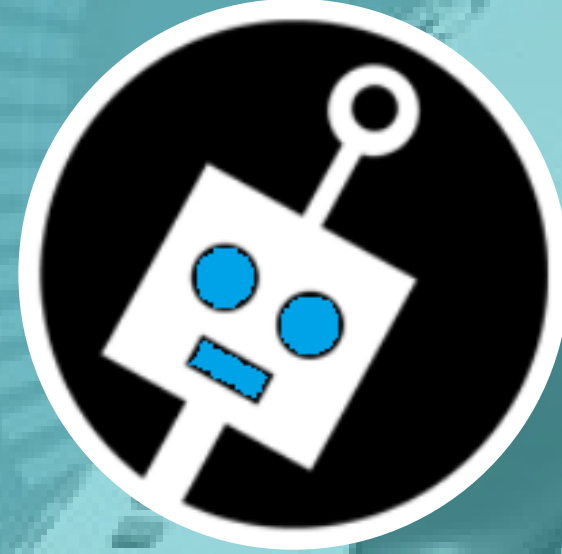

**2
Hours of
Networking**

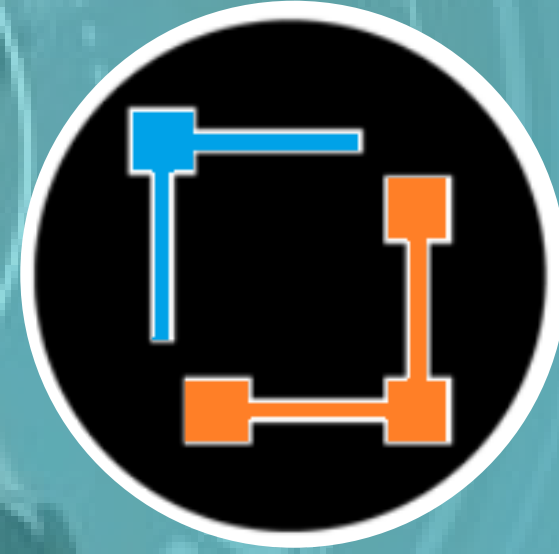

Why Attend

Discover how RPA alongside business process and machine learning technologies will open up a new business opportunities

How do we govern this technology and job prospect with RPA.

“Everyone’s talking about it, but no one’s doing it right”
Is this true of automating risk management & compliance?

Hear few case study presentations from companies that have already implemented RPA solutions as a part of their corporate operations

Cognitive automation is where everybody is going!” Find out how to turn your RPA strategy into a cognitive masterclass

Connect and network with software, hardware and service providers to evaluate how RPA can add to your business model
